“ I am in the process of starting a small retail business in Chester County and I am in search of legal assistance to help me with the various forms, registrations, etc. required of a startup in PA. I am also interested in lease or purchase negotiation assistance when I find an appropriate property for my store. In addition, I would be interested in assistance with occupancy and HR needs as my business progresses. ”

“ Looking for assistance with a large estate and family business. I am located in Media and can be available Monday after 11. ”

“ I'm looking at getting a will/power of attorney/trust for my wife and I after having our first child. What is your process for doing this? Do you have a standard fee schedule and what is involved in the first complimentary consultation? ”

“My husband and I are looking to purchase an investment property and would like to setup a consultation regarding the best way to legally go about doing that for our situation ... ie if it would be best to do it within a business structure, my existing LLC, or just as a personal second home etc.

I am interested in finding a legal office we can trust with our best interests for both this project and my existing LLC's future needs - I was highly unimpressed with the service I received from another firm when hiring them to setup my LLC 2 years ago and don't want to use them for anything else in the future. ”

“My Father passed away..... he put his Granddaughter (27) in charge of everything. He has a home ... that I've been renting out for over 16 years. His name is not on the lease ... And she wants them out NOW....I don't want to contest the Trust, I simply need legal counsel to hold her accountable for distribution of assets, including, but no limited to the House in ..., Stocks, Bonds, Savings, Checking and personal property.”

“ Good morning, My husband and myself are fairly new residents in California. Our wills, powers of attorney, end of life documents and trust documents need updating. We understand that in California we would need to have a trust put in place in the event that either one of us dies so that our assets would avoid public probate. We haven't done this before. I can meet you on Zoom, bring in our documents for you to check and then would appreciate your guidance. ”

“ I am reaching out to you because we have had a rental property for the last 8 years and we have never really paid too much attention to the rent or the market..... we would like to find an attorney that can help us understand the law better and what is possible and not for the Penal Code 396 regarding Price Gouging. ”

“ I have an old year 2000 Revocable Living Trust that needs to be revoked and a new one done. Past attorney has passed away and everything in my old trust needs changed.... ”

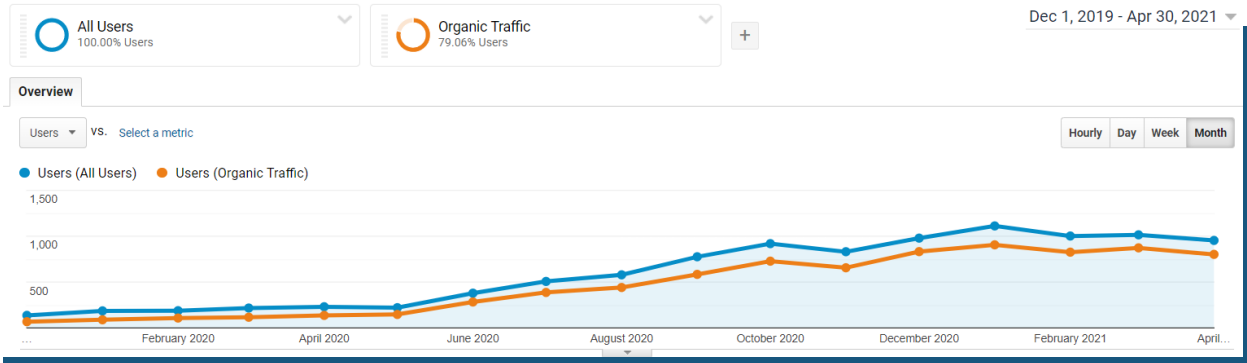

CLIENT TESTIMONIAL

Our firm has partnered with the WSI team for over five years, and they are our primary go-to resources for attracting new clients. We continue to be impressed by the depth of their creativity in the design of our website and newsletter, and in suggesting topics for articles and LinkedIn postings. They are particularly skilled at translating “lawyer speak” into articles that are understandable to the average reader. They utilize an outstanding tracking and reporting technology that uses graphics to make the reports immediately understandable. Finally, they are always positive, upbeat, and respectful of our attorneys' busy schedules. WSI is the key to the exponential growth of our web presence, and in addition to SEO and Paid Search, the team now assists with our Email Marketing and Social Media.

“ Most pressing issue is that I need some advice dealing with my HOA. I am also looking for someone who will eventually help me deal with legal matters regarding the inheritance from my father. It’s tied up in a dairy farm that my cousins have taken over and it’s not looking like they’ll be able to come to an agreement for buying him out. Just need to know what I should be doing now to prepare, although it’s not going to be any time soon. E-mail is best way to reach me. ”

“ Right now I have a permanent PFA on my ex and the father of our 2 year old daughter for 3 years. In the order I have primary custody and he can only write to me in regards to our daughter and can have supervised visitations. I would like to talk about getting full custody of my daughter but not sure if I would be granted legal. ”

“ My brother is looking for a lawyer to defend him in his up and coming case. ”

“ Looking for a reasonable child support attorney to help my grandson. ”

Ila help us rebuild our law firm website last year and followed up with an SEO plan for our online lead generation. With her efforts we have built a consistent stream of organic leads to our business that we did not have before. She and her team are responsive professional and try their best to provide solutions that fit our needs. I strongly recommend her to anyone looking for web development or SEO .
